***Examiner's Reason for Allowance***

1. Claims 1-69 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach the claimed method for creating nanowires having the steps of being placed on a substrate in a low-pressure chamber, being exposed to an energy, adding gaseous reactant, and continuing the process until the desired length are formed.

***Drawings***

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the Figures contain figure drawing numbers that appear to be informal and handwritten. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
